

Electrical 2 Mechanical

Excellence in M&E Solutions

About Us

At e2m (UK) Ltd, we take pride in delivering reliable, high-quality services across electrical, mechanical, and building disciplines. Our diverse team of highly skilled professionals bring decades of combined expertise and experience, ensuring that each project is approached with a proactive, solutions-focused mindset.

We provide integrated services that combine excellence, professionalism, and efficiency. From the initial planning phase to the successful completion of your project, we ensure the highest level of support every step of the way. Whether you require a one-off installation or a long-term contract, e2m deliver results with integrity, precision, and a steadfast commitment to safety. Our team's focus on quality ensures that every project, no matter the size, is executed seamlessly and to the highest standard.

At E2M, we expertly manage all aspects of both reactive and planned preventive maintenance, ensuring your facilities run smoothly, safely, and efficiently. Our responsive team is on hand 24/7 to address urgent issues, while our proactive maintenance programs minimise downtime and extend the life of your systems—keeping your operations one step ahead.

We maintain close liaison with landlords, key stakeholders, and specialist subcontractors, such as fire alarm and sprinkler system experts, to secure all necessary approvals, permits, and site access for our engineers and managers. Our team ensures full compliance with regulatory and site-specific requirements. We also plan and execute crane lifts for rooftop plant installations, proactively engaging with local authorities and adjacent businesses to address all safety, logistical, and operational concerns.

E2m are committed to providing tailored, efficient solutions that meet the unique needs of our clients, consistently exceeding expectations, first time, every time.

24 hours a day, 7 days a week, 365 days a year!

SHOWCASE

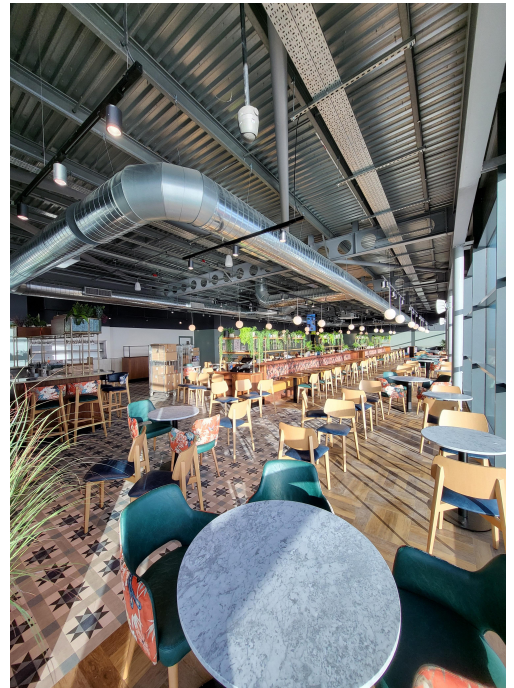

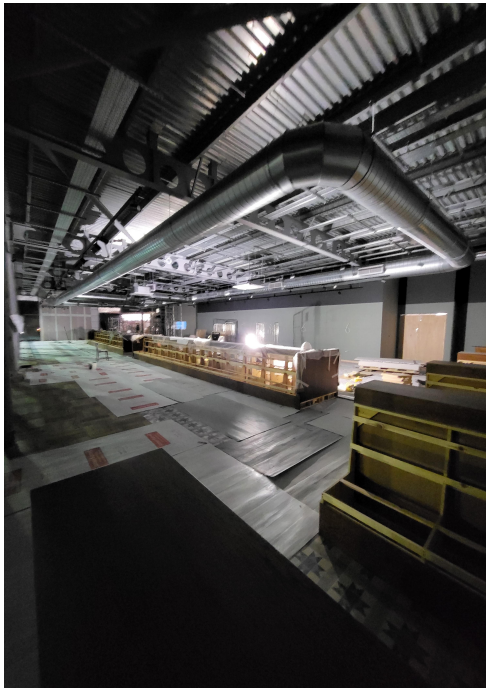

Newcastle Airport - Aster & Thyme

A major project to design, strip out, and install new electrical and mechanical systems for Aster and Thyme, a large restaurant & bar area in the departure lounge at Newcastle International Airport.

The project required e2m to.

- Design the small power and mechanical installations around the brand designer's layouts and the client's operational requirements.
- Installation of small power features, including all containment and cabling. Specialist sockets and switches, data and communication systems linked to the main airport PAVA system.
- Client brand lighting installation with zoned control system
- All water services and drainage

The size and complexity of the restaurant, bar and kitchen required close and regular communication with the client, main contractor and the airport to ensure that any changes, obstacles and issues were dealt with swiftly to the satisfaction of all.

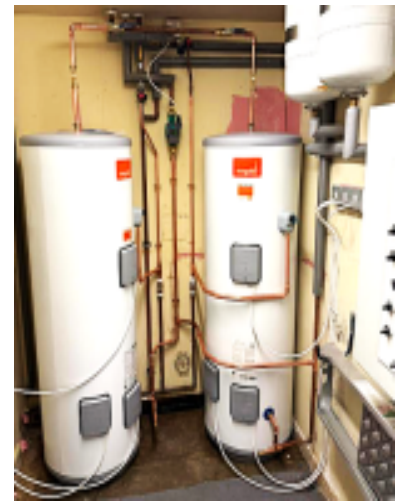

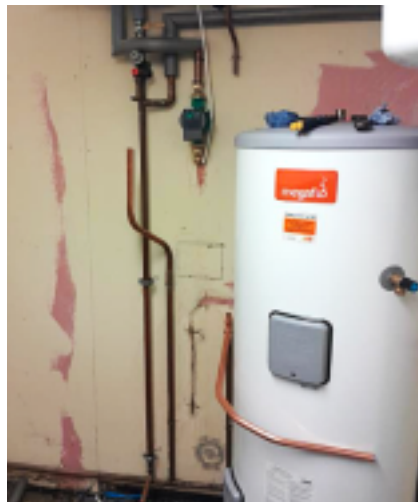

SHOWCASE

Cheshire Oaks - Wagamama

A installation of replacement unvented, direct water boilers, to provide hot water to meet the demands of a busy casual dining restaurant at the Cheshire Oaks Designer Outlet on The Wirral.

The project required e2m to.

- Understand the requirements of this busy restaurant in terms of hot water provision, to meet demand and ensure that the parameters for water safety were always met.
- Decommission, remove and appropriately dispose of the old Stelflo 250L immersion heater cylinders.
- Install new 250L DDD Megaflow Cylinders with improved recovery rates and connect to the existing water installation via modified pipework and valves, a new return pump and integrating with the existing BMS control panel.

SHOWCASE

London City Airport - Hithes Restaurant

A major project to design, strip out, and install new electrical and mechanical systems for Hithes a large restaurant & bar area in the departure lounge at London City Airport.

The project required e2m to.

Design the small power and mechanical installations around the brand designer's layouts and the client's operational requirements.

Installation of electrical system.

Installation of Ventilation and kitchen extract including complex fire dampening within ductwork and full integration with the airport BMS.

All water services and drainage.

Organisation of a major crane lift of plant to the roof which required temporary closure of the Docklands Light Railway to avoid issues with the crane's slew zone.

The size and complexity of the project, particularly the crane lift, required close and regular communication with the client, main contractor and the airport to ensure that issues were dealt with swiftly with quality and safety being key to successful execution..

SHOWCASE

Lincoln - Wagamama

Refurbishment of external hardwood cladding to external dining area of dockside restaurant.

The scope was to strip the old very weathered finish to cladding on two levels, sand to required standard and retreat to improve protection and aesthetic.

Issues resolved were working at height, partially over water and operating in a live environment, the restaurant stayed operational throughout.

All works were completed on time to the satisfaction of our client, Wagamama.

Testimonials

"E2M has quickly become our go-to M&E subcontractor.

Their team is organised, efficient, and have a great attention to detail.

From a client point of view, they save me time by being proactive and having solutions and workarounds to problems faced with installations.

Updates and communications are clear and concise.

I would highly recommend E2M as a principal contractor onsite."

Glenn McIntosh - Project Manager, Newcastle Airport

"I just wanted to thank you and your team for the fantastic job you have done at Newcastle airport over the past 18 months.

Your leadership and professionalism have been fantastic with a real focus on delivering for the client while offering opportunities to improve things.

I look forward to working with E2M again."

Dave Bedward - Senior Project Manager, SSP

"I would like to leave some positive feedback for the two gents that have recently carried out the work in Carlisle laying the floor in the new room.

Both gents were very professional and kept me in the loop during the whole works process. Would happily have them back at Carlisle anytime."

Leon Grierson - Training Manager, Rail Gourmet

Thank you for considering E2M (UK) Ltd.
We look forward to working with you.
